Army Medical Department Expendable/ Durable Items

**Headquarters
Department of the Army
Washington, DC
3 March 1987**

UNCLASSIFIED

1. Purpose

This table is used as an authorization document in accordance with AR 71—13, and additional documentation for authorization is not required. It provides flexible basis of issue which may be used to acquire selected expendable/durable medical items for those units of individuals required to accomplish their mission and not otherwise authorized the items as components of medical and dental equipment sets. It also provides guidance to using units for determining initial issue and stockage quantities necessary for mission requirements.

2. Reference

Required and related publications and prescribed and referenced forms are listed in appendix A.

3. Explanation of abbreviations and terms

Abbreviations and special terms used in this CTA are explained in the glossary.

4. Special Instructions

- a. Quantities shown herein may be decreased or omitted by the appropriate commander.
- b. Requisitions for expendable/durable items listed herein are restricted to items with an acquisition advice code which does not prohibit issue.
- c. Units should requisition items and quantities included herein only when able to receive, store, maintain, and utilize same.
- d. Expendable/durable items are obtained and maintained by using units and activities in accordance with supply procedures prescribed in those regulations listed in appendix A.
- e. In order to provide guidance pertaining to authorization of expendable/durable items in instances where it is impractical to compile meaningful bases of issue, expendable/durable medical items in the following Federal Supply Classifications (FSC) of DoD Medical Catalogs are authorized to Reserve Component units with TDA medical mission "As Required" when items are not listed in the CTA or authorized in another document: 3000-6300, 6505, 6508, 6510, 6515, 6520, 6525, 6530, 6540, 6545, 6550, 6600, 6700-9500.
